MRS. M. M. DENSLOW,

Having returned from New York, with the usual supply of Late Millinery Goods, is now ready to offer to the Public an assortment that will fill with the very best of fashionable taste, ever before brought into a Batavia establishment. Mrs. D. did not go to Paris herself, but has purchased at Importing Houses in New York, who have been kept in the fashions selected by fashionable customers, who pay, if they cannot obtain and thus is kept out of that class of purchasers, is excited to give her patronage the full benefit of a superabundance of goods, purchased at those Houses, where fashionable customers do not find, at very small profits. The Public are invited to call and see, after looking at the splendid stock there will not be inclined to go empty handed.

Through trade is greatly desired, although no promises or pretensions have been made to that end, therefore,

She is fully prepared to entertain all orders in this line of trade, and to guarantee satisfaction, and with all of the assurance, without any fashion, that her reputation has heretofore been, she would respectfully solicit a share of the same. Her customers will also find her ready to suit the tastes and the means of the latter.

Another Allied Victory.

The brief despatch from St. Johns, last evening, says the Stockbroker Democrat, is of the highest importance. The long expected general battle near the Mincio took place on the 24th ult, and according to the despatch of Emperor Napoleon to the Empress, resulted in a complete victory to the Allies. We place full reliance upon this intelligence, and all the more readily because the French accounts have thus far proved reliable. This will be astounding to nearly all of Europe, as it was confidently believed that after gaining a new position, in the midst of strong fortifications, the Austrians would be able, if they did not turn the tide of war, to at least make a successful stand.

The future parties to this bloody contest will not be long in taking their positions.

The express bag sent by the United States Express agent at St. Louis for New York in the balloon Atlantic was picked up July 4th, on the lake, six miles west of Oswego. It contains over 40 letters to New York correspondents, among which is a draft of $1,000 on any bank. The package was forwarded by express.

The Republican State Committee met at Albany yesterday, and fixed upon the 7th of September as the time for holding the Convention for the nomination of a State Ticket. Two delegates from each Assembly District are to be chosen—the same as has been usual since the organization of the Republican party.

A messenger arrived at Boston last evening, 6th inst, with an official despatch from the President, commuting the sentence of Plummer to imprisonment for life.

The Railroad Disaster.

The Toledo Blade learns from the Michigan Enterprise that reports arrived at that place from the ravine, (two miles distant) on Friday morning, that another car had been found entirely buried in sand and water, and supposed to be filled with victims. The bells were rung, and the citizens were rushing with spades, &c. across to the spot. The editor of that paper saw one whom he knew, who said that they saw the ventilators and felt the top of the car.

It seems almost incredible that an entire car should have been embedded deep enough to escape observation so long, or that the absence of one among the train should have been so long unnoticed. But we realized that one of the earliest despatches from the scene of the disaster made mention of a car filled with laborers, as belonging to the ill-fated train, and no account of this car and its occupants has been given since, we believe.

Emigration to the Bay State.

About half past five last evening as the Albany steamer Bay State was passing up the river, and when nearly opposite the Greenpoint Ferry, her lookout boiler burst with a loud explosion. She was run up opposite the Hunter's Point Ferry where she struck on Knickerbocker Rock, and there laid until the Connecticut came up and took her passengers off.

Two of the engineers and one of the passengers were badly scalded, and were taken to Bellevue Hospital. The chief engineer, Mr. Finkle, was engaged by the boiler at the time and his escape was miraculous.

The steamer was taken in to the foot of Ninth street and her way passengers returned to the city. A flaw in the plate of the boiler is supposed to be the cause of the accident.—*N. Y. Post, July 5.*

A party who went out in search of a pure silver mine in California, of which a Mr. Harding obtained a specimen in 1848, have returned, and report that they have a lead of silver ore, from ten to 16 feet in width, which has been traced for some eight miles. Samples taken into Sheets, as being tested, assayed at the rate of 16½ ozs. to the ton, or about $164.

The Washington *Star* thinks, from all the data in its reach, that Washington city has now a population of between 75,000 and 80,000 and confidently expects that the census to be taken in 1860 will prove the correctness of this opinion.

Cooper Novels.

We are in receipt of the sixth number of Coopers Novels, Illustrated by Darley, entitled the "Bravo," a Venetian tale, and containing such a picture of the social system of that *ci-devant* republic as is to say the least of it exceedingly interesting. He who has ever read the renowned play of "Abaline the Brave of Venice," can form some estimate of this work, as its scenes are similar in their character and the virtues and vices of the citizens of Venice are delineated, and the power of, and infliction of punishments by the Romish inquisition are happily portrayed. It is written in Coopers beautifully elegant style, and he who reads it, can not but be benefited thereby. The Palace of St. Marks, the bridge of the Rialto, the canals the Gondolas thereon, with the people from the Doge down to the fisherman, the one in his ducal splendor, the bridge of Sighs, the lateral courses of and the gay crowds upon the others in their richly caparisoned boats.

The aristocratic sway of the Doge and the rustic sympleity as well as the determined character of the fishermen, all are descanted upon in a way to give the book such attractions as are absolutely necessary to, and which have rendered Coopers novels so popular among the masses and we hesitate not to recommend this volume to the reading public, as highly deserving of their patronage and attentive perusal as we believe it will afford them much profitable amusement.

Drifting for Dutch.—The German republicans denounce Massachusetts and demand, as the price of their continuance in the republican party, that her delegates should be refused admittance to the next republican national convention. To those threats the Boston Atlas & Bee the leading Black Republican journal of that State, replies:

As for excluding the Massachusetts delegates from the national convention unless they repudiate the two years' amendment, all we have to say is: *Let the convention try it.* The Massachusetts delegates would probably not leave alone, and those who urge such a proposition will find that a Massachusetts republican is as good as a German one, and they will find also that Massachusetts will take no step backwards in this or any other proposition she can honestly and properly maintain.

We say again that we have no unkind feeling towards the German voters of this country. At the same time, Massachusetts will permit no one, native or foreign, living beyond her boundaries, to dictate terms to her. Let it be known, now and forever, that if the western republicans submit their party and themselves to be lorded over by a few German voters, that they will break up their organization in their own State, and sow the seeds of another American party, which will exert a power more vast than those who now confess Massachusetts to obtain favor of the Germans, have the remotest idea of.

Should national convention, by resolution or otherwise, be silly enough to attempt to single out Massachusetts and discredit her for having in her own way amended her own fundamental laws, or should they attempt to exclude the delegates from this State from holding seats for any such cause, a storm will be raised such as has not been heard of since conventions had an existance. We hope we shall hear no more of this kind of talk.

Burglar Caught.—At an early hour yesterday morning, Policeman Thomas Kennedy, while pacing his beat near the Elk Street Market, heard a noise of breaking glass in the neighborhood, and proceeding in the direction of the sound, discovered a man in the act of "pulling" a sash of four through the window of Geo. L. Crocker's store, having smashed a pain of glass for the purpose. He captured the burglar and conveyed him to a secure lodging in the third Station House. Yesterday he was arraigned before Justice Bidwell and plead guilty, stating that he was driven to the act by the starvation of his family, which consisted of a wife and four children. The Justice was obliged to commit him for trial, but it is to be hoped that if his story is a true one, the higher court will feel justified in recognizing the desperate necessity which occasioned the crime. The man gave his name as Thos. Bowman.—*Buf. Ex.*

A fire broke out Sunday afternoon in the pyrotechnic manufactory of Professor Samuel Jackson, at the corner of Tenth and Reed streets Philadelphia. The building and its contents were entirely destroyed. A young man, named Charles Beck, was burned to death in the flames. He left a widow to mourn his loss. This is the seventh time M. Jackson has been burned entirely out.

NEWS SUMMARY

—Mrs. Everett, wife of Hon. Edward Everett, died on Saturday night after a long illness.

—Dr. Henry Northall, Acting British Vice Consul at Gloucester, committed suicide on Sunday by hanging.

—A sail boat containing 28 persons, on Lake Clear, Ind., capsized on the 4th and 16 persons, mostly ladies and children were drowned. No names have been reported as yet.

—Thomas G. Cary, Treasurer of Appleton and Hamilton Cos., and formerly engaged in mercantile business in New York and Boston, died at his Summer residence at Nahant, July 4th.

—Mayor Bishop, of Cincinnati, on the 4th authorized the Lieutenants at the different Station Houses to arrest all parties, large or small, male or female, who were seen to use that species of fireworks known as "serpents."

—It is reported that the London Times proprietary have settled upon Mr. Wm. Russell, their special correspondent in the Crimea and India, an annuity of £200 for life, this being entirely for past services, and independent of any work to be done by him in future.

—Senator Douglas was on the train from Washington to New York, to which an accident occurred ten miles from Baltimore, on Sunday evening last. The New York Herald says he had a narrow escape from being killed."

—In the Supreme Judicial Court, Boston, on Saturday, in the case of Sarah E. Shaw vs. the Boston & Worcester Railroad Corporation, the motion for a new trial was overruled, and judgment for $22,246 ordered to be entered for Mrs. Shaw. Mrs. Shaw's husband was killed on the road belonging to the Company.

The small town of Tilton, Fleming county, Ky., on Friday last, was visited by a destructive hail storm. The hail fell in immense quantities, and was accompanied with rain and a very hard wind which swept a great many fences away. The corn was stripped to the ground, while the hemp crop was considerably damaged.—The day following the storm vast piles, where it had drifted were found unmolted and some of the hail stones were said to be equal in size to a hen's egg.

One of the Philadelphia papers says: "The self propelling steam fire engine, built at Lee & Larned's Novelty Works for the Southwark Hose Company, arrived last evening, having propelled itself over the turnpike road from Bristol, twenty miles in two hours actual running time. The highest speed attained was at the rate of eighteen miles per hour, while several steep hills were surmounted at the rate of ten miles per hour. The weight of the engine is 9,000 pounds, and that of its fuel, water and nine men 3,000 pounds."

It is now proposed in Philadelphia to tax the Insurance Companies some $10,000 for the water used in extinguishing fires. The reason for this is, that the city pays $50,000 annually to fire companies, while all the property belonging to the city is insured—thus making the Insurance Companies gainers by this expenditure.

Mrs. Edward Everett, whose death was announced yesterday by telegraph, was the daughter of the late Peter C. Brooks, of Boston, the richest man in New England. Two sisters survive her—the wives of Rev. Dr. Frothingham, of Boston, now in Europe, and of Charles Francis Adams, the son of John Quincy Adams, and Representative to Congress from Massachusetts.

The total number of houses in Boston in 1723 was about 3600, of which 1000 were brick and the rest of wood, and the population, after a settlement of nearly one hundred years, amounted to only 12,000 Now the number of buildings is probably upwards of 16,000, while the population is in the neighborhood of 175,000.

Fifteen Thousand Dollars Found.—The American Express Company lost none of their specie by the recent railroad disaster. One bag containing $15,000 was missing, but on Thursday evening last it was discovered, buried in three feet of mud, but so soft was the spot where it sunk, that while handling it out, it dropped some feet deeper into the mire, but was "touched" at last. The company had $30,000 in cash in their box when it went down.

THE GROVER & BAKER

Sewing Machine Co.

Having greatly increased their facilities for manufacturing their CELEBRATED FAMILY MACHINES, with all the recent improvements, have reduced their prices, and offer for sale

A NEW STYLE MACHINE, PRICE $50.

It is no longer questioned that these Machines are the best in use for family sewing. They

HEM, FELL, GATHER AND STITCH

in the most superior manner, and are the only machines in the market that are so well and simply made, that they may be sent into families with no other instructions than are contained in a circular which accompanies each machine, and from which

A CHILD OF TEN YEARS

may readily learn to run them, and keep them in order. They make upwards of

FIFTEEN HUNDRED STITCHES A MINUTE,

and will do the sewing of a family cheaper than a seamstress can do it, even if she works at the rate of

ONE CENT AN HOUR.

Is there a husband, father, or brother in the United States who will permit the drudgery of hand sewing in his family, when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

BY TELEGRAPH.

LATER FROM EUROPE!

Arrival of the Steamer

VIGO AND ADELAIDE.

A GREAT BATTLE

AND

A GREAT VICTORY!

THE ALLIES AGAIN VICTORIOUS!

St. Johns, N. F., July 8.—(Received in New York the 9th). The steamer City of Baltimore, which left Liverpool on the 23d ult, via Queenstown, broke her propeller and was obliged to put back.

The Vigo, of the same line, took her place, leaving Cork at 2 P. M. of 25 ult., and passed Cape Race at 3 o'clock on the morning of the 3d. inst., where she was boarded by the news yacht of the Associated Press, and the following summary of her news obtained:

Liverpool, Thursday, 23.—Advices from Italy to-day are of no particular importance. No battle had yet occurred, though expectation is on tip-toe for one.

The Allies have occupied Lanoto, Castiglione and Montechiara.

Napoleon had joined the Allied camp.

The Liverpool Mercury of the 24th has the following despatch from Vienna, dated the 23d:

The Austrian government has formally declared the cruelties attributed to Gen. Benedan in Count Cavour's message, as entirely devoid of foundation.

A sanguinary collision had taken place at Perugia between the soldiers of the Pope and the inhabitants.

The King of the Belgians and the Count of Flanders had arrived at Buckingham Palace on a visit to the Queen.

There had been no battle on the line of the Mincio, though the armies were face to face.

Prussia was about to move an army to the Rhine.

The attitude of the contending armies continued without change. The main body of the Austrians were on the left, back on the Mincio.

The Emperor of Austria had removed his headquarters to Valleibo.

It was believed that the force of the Austrians on the Mincio numbered 290,000.

The entire French force had passed Montechiara, and the reconnoissance had been pushed as far as Gotio.

The Piedmontese had advanced towards Pesquiera.

Napoleon, preparatory to an offer of mediation, had demanded permission, to march 31,000 troops through Hanover to the Rhine.

It was believed that the basis of the proposed mediation by Prussia would not be acceptable to France, thereby involving Prussia in war.

The reported treaty between Austria and Prussia was denied.

It was rumored that Prussia had threatened to assist in suppressing the Hungarian insurrection.

Prince Napoleon was on the borders of Mogena.

Parliamentary proceedings in England had been suspended until the Ministers of the government were re-elected.

It was rumored that the new Ministry would curtail the navy expenditures.

The Austrian troops sent from Rome to Perugia to suppress the rising, had a desperate encounter with the people, whom they shot down indiscriminately.

The very Latest.

[By Telegraph to Galway.]

Paris, Saturday, June 25.—The Emperor telegraphs the following to the Empress:

"Canada, Friday Evening.

A Great Battle—A Great Victory.—The whole Austrian army formed a line of battle extending five leagues in length.—We have taken cannons, flags and prisoners. The battle lasted from 4 in the morning till 8 in the evening."

A Vienna despatch supplies a partial confirmation of the above, in stating that a battle was progressing, but no details had been received.

Pretty nearly all men are benevolent when it don't cost them much. Tom Jones never sees poor John Smith suffer but he thinks Lem Rogers ought to help him.

A teacher of vocal music asked an old lady if her grandson had any ear for music. "Why sir," said the old woman, "help us we know, don't you just take the candle and see?"

A man who ridicules his neighbor foibles and pronounces him to be deficient in intellect, whether just cause, is very apt to possess more self-esteem than sound sense.

For Inflamatory Diseases Only.

New Medical Salt! New Medical Salt!

IT IS NOT A CURE-ALL.

For Inflammatory Diseases only

DR. CHURCHILL'S NEW MEDICAL SALT, instead of 48 hours is capable for all its, has created more than one sick, and accomplishes but one thing, to wit: subdues inflammation, wherever in the form or locality, whether in the head, throat, abdomen, extremities or skin.

NEW MEDICAL SALT. Its peculiar excellence is, that it enriches the current blood and strength. It effectually cures inflammatory diseases, the chief by restoring an equilibrium of the fluids in the body, the want of which is the sole cause of inflammation!

NOTICE TO INVALIDS! The following forms which the establishment feels assured, and many men have experienced, that have spent time or pain, are easily obtained by the New Medical Salt, as they extinguished by water, to wit: Dark Fever Blotches, rash of blood to Head and Heart, Sore, Inflamed eyes, sore, nose, lungs and throat, Neuralgia, [illegible] affections, Erysipelas, Scrofula, Pimples, Boils, Cough Bronchitis, Venereal Diseases, Rheumatism, Gout, Scrofula, and all itching and other cutaneous eruptions.

DR. CHURCHILL'S NEW MEDICAL SALT does just what it claims to do—cure many. We have witnessed the trial by removing it from the system all effected and wasted substances. Physicians should buy the whole it from any Druggist who has this valuable medicine for sale.

DR. CHURCHILL'S NEW MEDICAL SALT, that a Child [illegible] Ask any Druggist about the New Medical Salt!

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the set of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by depositions from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which gendres in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "capacity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so compound that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or derangement of its functions.*

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

OFFICE 96 MAIN STREET,

(1st door, Up Stairs, Buffalo, N. Y.)

A NEW, SPEEDY, AND MOST SUCCESSFUL MODE OF TREATING

Spermatorhœa, Nervous Debility, Marasmus or Wasting Consumption,

AND ALL

Diseases of the Urino-Genital Organs

A CLASS of Maladies prevail to a fearful extent in community; destroying at least fifty thousand youth of both sexes, annually to an early grave. These diseases are very imperfectly understood. Their external manifestations or symptoms are Nervous Debility, mental and exhaustion; Unnatural, or premature waning and consumption of the tissues of the whole body; shortness of breathing, or hurried breathing on ascending a hill, or a flight of stairs—great palpitation of the heart, nervous irritability and sore throat; shaking of the hands and limbs, aversion to society, and to business or study, dimness of eye-sight, loss of memory, dizziness of the head, nocturnal pains in various parts of the body; pains in the back and limbs, lumbago, dyspepsia or indigestion, irregularity of the bowels, deranged secretions of the kidneys and other glands of the body, as Leucorrhœa, or Fluor Albus, &c. Likewise Epilepsy, Hysteria and Nervous spasms.

Now, in ninety-nine out of every one hundred cases all the above named disorders and a host of others not named have their seat primarily in the sexual organs, and arise from manifold exciting causes and chronic inflammation—a state of morbid irritability, hence the want of success on the part of our School Doctors.

DR. JOHNSON is now engaged in treating this class of modern maladies with the most astonishing success. The treatment adopted by the Institution is new, it is based upon scientific principles, with new discovered remedies, without mercury or poisons. The sufferers of every one such patients can be cured at their own homes without exposure to any part of the country, from an accurate description of their case by letter, and have the medicine sent them by mail or express.

Young Men suffering from these direful ills, will receive for $5 a course of Health Rules, and perfect chart of cure, which will be to them a true guide star through life.

CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA.

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Preparation—the HYPOPHOSPHITES OF LIME AND OF SODA—evidence all remaining doubts as to the *Scientific value of the Discovery*—Consumption is no longer to be regarded as an incurable malady.

Many hundreds of physicians have already adopted this treatment with almost invariable success. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, as speedily as possible, into universal use, as I know that they will prove not only

An Sovereign Remedy in Consumption
as Quinine is in Intermittent Fever—but also
an Effectual Preventative
as Vaccination is in all Pox.

"In my estimation I regard the remedy *fail to produce* everything that could reasonably be expected from it.

"Even in cases which came to the third or last stages, treated at my Dispensary, during the past year, eight have completely recovered, eight have died, and six are still under treatment. Such a result is altogether unparalleled in the annals of Medicine."

☞ This Remedy is the most powerful generator of Blood known, and is equally effective in all forms of Debility, Anæmia, Bronchitis, Nervous Diseases, Chlorosis, Dyspepsia, or whatever depends on deficient vitality in the system.

Winchester's Genuine Preparation.

As put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a fac-simile signature.

☞ No other can be relied on as the pure hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. So from or other drug should be combined with them, or taken at the same time.

☞ Price $1.50, or three bottles for $4.00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts for distribution to the profession. Single bottles to accompany sending cash by mail, when quantity desired. Sold wholesale and retail at the Sole General Depot in the U. S., 47 John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Invalid sufferer in the U. S., on receipt of twelve cents to defray the expense of postage. Also, circulars and all requisite information without charge. Let no one delay, for time is precious in the fatal malady of consumption. Address
